

COFFEE CORNER

Plant Planner

Choose a spot before you shop. Record your own observations.

My proposed plant location:

Morning / midday / afternoon light:

Direct sun, curtains or shade I noticed:

Plant botanical name and care-label requirements:

Pet / child access and identification check:

Pot width, height and widest leaf spread:

Appliance lids, vents, plugs and mug space to keep clear:

DRY-POT TRIAL

[] Stable base and fully supported pot

[] All machine parts accessible; leaves and water clear of electrics

[] Useful brewing space remains; nearby location considered

COFFEE CORNER

Plant Planner

A small plan for watering, surface protection and everyday use.

Growing pot drainage / removable outer pot or saucer:

Countertop material and suitable protection:

Where I will water and allow the pot to drain:

How I will check moisture for this identified plant:

Reminder to check (not automatically water):

Planter color / existing item I will remove to make room:

After a few mornings: keep, move or simplify?

QUICK RESET

[] Empty collected water; dry the outside before returning

[] Check fallen leaves, dampness and stems near equipment

[] Keep hands, cups and drink preparation separate from soil
