

Coffee Maker Comparison

Start with your routine. Check the exact model and manual before you buy; product size alone does not establish safe placement.

My everyday drink: _____

Servings at once: _____ Mug size (fl oz / mL): _____

Equipment staying here (kettle, grinder, frother): _____

Available width: _____ depth: _____ cabinet height: _____

MY SHORTLIST

	Candidate A	Candidate B	Candidate C
Exact model / market			
Manufacturer link / date checked			
Brewing method / coffee supplies			
Closed width / depth / height			
Open height / refill access			
Clearance instructions checked			
Mug / carafe fit			
Usable drink volume			
Other equipment / storage			
Cleaning / consumables			
Warranty / return terms			

Unknown essential detail? Ask the manufacturer before ordering.

Cost & Final Decision

Use current prices for supplies you would actually buy. Keep estimates separate from verified specifications.

STARTING COST

	Candidate A	Candidate B	Candidate C
Coffee maker			
Required grinder / frother / kettle			
Other necessary tools / supplies			
Total to get started			
Coffee cost per serving			
Expected servings per 30 days			
Coffee cost for 30 days			
Filters / care supplies / other extras			

THREE NON-NEGOTIABLE CHECKS

- ☐ Fits and operates according to the exact model instructions
- ☐ Makes my preferred drink and amount; supplies are available
- ☐ Complete setup and ongoing costs fit my budget

Preferred candidate: _____

Questions still to resolve / manufacturer confirmation:
